# Your Child's Ultrasound Scan

## **What is an Ultrasound scan?**

For this scan we use high frequency sound waves.

Humans are unable to hear them, but the scanning machine uses them to produce scan images.

It is a quick and painless procedure.

## **Are there any risks involved?**

There are no risks involved in this procedure.

## **Do I have to have this scan?**

The doctor has requested this scan for your child. It is the easiest way to gain the information needed to diagnose your problem.

## **What do I have to do before I come?**

- There is no preparation for this scan.
- Your child may eat and drink normally.

# Your Child's Ultrasound Scan

## **What does it involve?**

- A cool gel will be applied to the area to be scanned. The hand held scanner will then slide easily to and fro to obtain the images.
- It will take about 15 minutes.

## **What happens after the Scan?**

- There are no after effects.
- You may eat and drink normally
- If your GP sent you, go back to the surgery for the results in 2 weeks
- If a doctor from the hospital sent you, you will receive a letter or follow-up appointment to discuss the results.
