

## Patient Information

## Guidelines following Manipulation under Anaesthetic

We hope that your stay in our Day Surgery Unit has been comfortable and to your satisfaction. We hope you have a speedy recovery and that the following instructions will be of help.

**Mobilising** - The joints manipulated should be used as is comfortable. You may take your usual bath or shower.

**Follow Up** - We will tell you about any follow up before you leave. If you need an outpatient appointment we will request one for you and the date and time will be sent to you by post.

**Stockings** - If you have been given support stockings to wear it is important that you continue to wear them, day and night, until you are fully mobile (at least 24-48 hours). The stockings should be removed for a short time daily to wash the feet and legs. You may also hand wash the stockings but do not dry them by direct heat (radiator or tumble dryer).

**Pain Relief** - If you have any discomfort, over the counter pain relief is usually sufficient to manage pain following this procedure.

### You were given the following pain killers while in Day Surgery

**Paracetamol** at

**Codeine** at

**Ibuprofen** at

### Instructions for patients who have had a general anaesthetic.

Anaesthetic drugs remain in the body for 24 hours and gradually wear off over this time.

During the 24 hours following your anaesthetic, you are under the influence of drugs and it is important to follow these instructions:

- Do not drive a car or any other vehicle, including a bicycle.

## Guidelines following Manipulation under Anaesthetic

- Do not operate machinery or appliances such as cookers or kettles.
- Do not drink any alcohol.
- Do not lock the bathroom or toilet door or make yourself inaccessible to the person looking after you.
- Drink plenty of fluids and eat a light diet, avoiding heavy or greasy foods.
- Take things easy for the day after your operation and do not work with machinery or take strenuous exercise.
- Do not make important decisions or sign important documents for 24 hours after your anaesthetic.

Some people take longer to recover from the effects of an anaesthetic so these guidelines may continue to be followed for up to 48 hours, if necessary.

**If there are any problems after you return home, please telephone your General Practitioner (GP) or out of hours GP service, or the Day Surgery Unit on 01793 604148 between 8.00am and 7.00pm, Monday to Fridays (excluding bank holidays).**

**After 7.00pm or at weekends please contact the Surgical Assessment Unit on 01793 604039.**

If you have any suggestions on how we can improve our service, we would be happy to hear from you.
