

Patient Information

Guidelines following Vulval and Vaginal Surgery

We hope that your stay in our Day Surgery Unit has been comfortable and to your satisfaction. We hope that you have a speedy recovery and that the following instructions will be of help.

Aftercare - It is important to rest when you leave hospital.

It is normal to have a small amount of bleeding or discharge from your vagina for 24-48 hours. You may also experience some soreness, bruising or swelling. This should settle within a few days. A cold compress over your underwear will reduce soreness or swelling.

If you are concerned, please see below for contact details of how to seek help.

If you experience pain when passing urine, you can pour water over your vagina whilst passing urine. This will reduce the discomfort.

We will tell you about any follow up treatment or appointment before you leave.

You may your usual bath or shower.

Stockings - If you have been given support stockings to wear it is important that you continue to wear them day and night until you are fully mobile (at least 24-48 hours). The stockings should be removed for a short time daily to wash the feet and legs. You may also hand wash the stockings but do not dry them by direct heat (radiator or tumble dryer).

Follow up - If required an outpatient appointment will be sent through the post _____.

You were given the following pain relief while in Day Surgery

Paracetamol at

Codeine at

Ibuprofen at

Guidelines following Vulval and Vaginal Surgery

Instructions for patients who have had a general anaesthetic

Anaesthetic drugs remain in the body for 24 hours and gradually wear off over this time.

During the 24 hours following anaesthetic, you are under the influence of drugs and it is important to follow these instructions:

- Do not drive a car or any other vehicle, including a bicycle.
- Do not operate machinery or appliances such as cookers or kettles.
- Do not drink any alcohol.
- Do not lock the bathroom or toilet door or make yourself inaccessible to the person looking after you.
- Drink plenty of fluids and eat a light diet, avoiding heavy or greasy foods.
- Take things easy for the day after your operation and do not work with machinery or take strenuous exercise.
- Do not make important decisions or sign important documents for 24 hours after your anaesthetic.

Some people take longer to recover from the effects of an anaesthetic so these guidelines may continue to be followed for up to 48 hours, if necessary.

If there are any problems after you return home, please telephone your General Practitioner (GP) or out of hours GP service, or the Day Surgery Unit on 01793 604148 between 8.00am and 7.00pm, Monday to Fridays (excluding bank holidays). After 7.00pm or at weekends please contact the Surgical Assessment Unit on 01793 604039. You can also call 111 for advice or visit www.111.nhs.uk In an emergency dial 999.

If you have any suggestions on how we can improve our service, we would be happy to hear from you. Please write to:
