

Integrating care in Swindon

Custom wheelchairs for the Swindon community

Our Swindon Wheelchair and Special Seating Service works in partnership with local organisations to provide a personal service to people who need a wheelchair.

The team adopt a holistic approach to each person, working with the Red Cross, Swindon Borough Council and a specialist medical engineering team, to provide a wheelchair to suit their lifestyle.

The service supports 3,000 local children and adults to live more independently, giving them the mobility needed to access learning, work and social activities that others may take for granted.

This is one of the few NHS services to support both children and adults, with clients ranging from one to over 100 years old!

We work closely with other services, to ensure we meet all the needs of our patients. For example, we work with Swindon Borough Council to ensure each patients' home is accessible and practical.

Together with our partners, we are helping to improve the quality of life for thousands of local people.
