

Statement of Purpose

The Aims and Objectives of the Great Western Hospitals in carrying out the regulated activity

OUR VISION

“To provide healthcare services that delight patients and satisfy commissioners by meeting, or exceeding, all local and national standards and providing convenient local services so that people enjoy the best state of health and will have access to first class services when they need them”

OUR AIMS

1. To deliver consistently high quality, safe services which deliver desired patient outcomes and we will perform in the top 25% (upper quartile) of comparable Trusts in delivering HSMR, Patient Satisfaction and Staff Satisfaction
2. To improve the patient and carer experience of every aspect of the service and care that we deliver
3. To ensure that staff are proud to work for the Trust and would recommend the Trust as a place to work, and to receive treatment
4. To secure the long term financial health of the Trust
5. To adopt new approaches and innovate to promote health and improve services as healthcare changes whilst continuing to become even more efficient
6. To work in partnership with others so that we provide seamless care for patients, more systematically identifying and supporting those individuals at most risk of ill health and delivering care closer to home in rural areas.

The Trust aims to be registered for the following regulated activities at the locations outlined (although some activities will be carried out at GWHFT Satellite Sites):

- Hillcote, 22 Manor Road, Salisbury, Wiltshire, SP1 1JS

The range of service users' needs which the services provided are meant to meet

By 2026 the population of Swindon is projected to grow by 81,600 people, which is an increase of 27.2 %. In Wiltshire a higher percentage of the over 65 year old population are receiving community services and future predictions show that in the over 75 year age group there will be a greater percentage of people with a limiting long term illness.

The ongoing impact of obesity, alcohol, smoking and dementia, the prevalence of chronic disease in GP registered populations, particularly diabetes, coronary heart disease and chronic respiratory conditions will continue to impact on use of health care.

The Trust is currently looking to be further at the forefront of healthcare innovation especially in the context of shifting care closer to home ensuring care is delivered in the

Great Western Hospitals NHS Foundation Trust

right place at the right time, creating a unique opportunity to further integrate care locally, transforming the way services are designed, delivering high quality acute and community care for patients.

Mental Health Services

The Trust works in partnership with organisations to ensure that patients with mental health issues are treated in accordance with the Act. This includes Swindon MIND regarding Independent Mental Health Advocates and the Swindon and Wiltshire Mental Health Network Boards. In addition a Service Level Agreement is in place with Avon & Wiltshire Mental Health Partnership (AWP) and Swindon PCT. The following 4 areas are contained in the Service Level agreement and will be reviewed and updated.

- Mental Health Liaison
- Crisis Resolution
- Out of Hours Care
- Application of the Mental Health Act:

The Trust has a Mental Health Act & Mental Capacity Act Committee that oversees the implementation of the Trust duties as outlined in the Act.

The full name of the service provider and of any registered manager;
