Comments

The White Horse Birth Centre is a co-located Birth centre, and delivers between 80-100 babies per month. It is staffed by a team of dedicated Midwives who provide care for women with low-risk pregnancies to birth in a less clinical environment. The Centre, provides antenatal triage for onset of labour, delivery, 3-6 hour short stay following delivery, and post natal care. There are four state of the art birthing rooms and a two bedded side room.

Activity is higher than that suggested by the new CHPPD reporting as this does not take in to account patients discharged post-delivery per day and the provision of support to the delivery suite & maternity ward during times when the WHBC have reduced activity. WHBC has been included in the return for further consideration by UNIFY2, as advised.
